Getting through downtown Barrington in the morning, late afternoon + into the evening, is almost impossible at the present time. I hate to imagine what navigation through town would be like with additional (and longer ~~the~~ trains) train traffic. Many times now it can take an incredible amount of time to go just a matter of blocks as you can get stuck waiting for 2-3 trains + there are commuter trains that are shorter + move through town relatively quickly.

I realize train transportation is necessary, but there has to be another way through a less congested area.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
